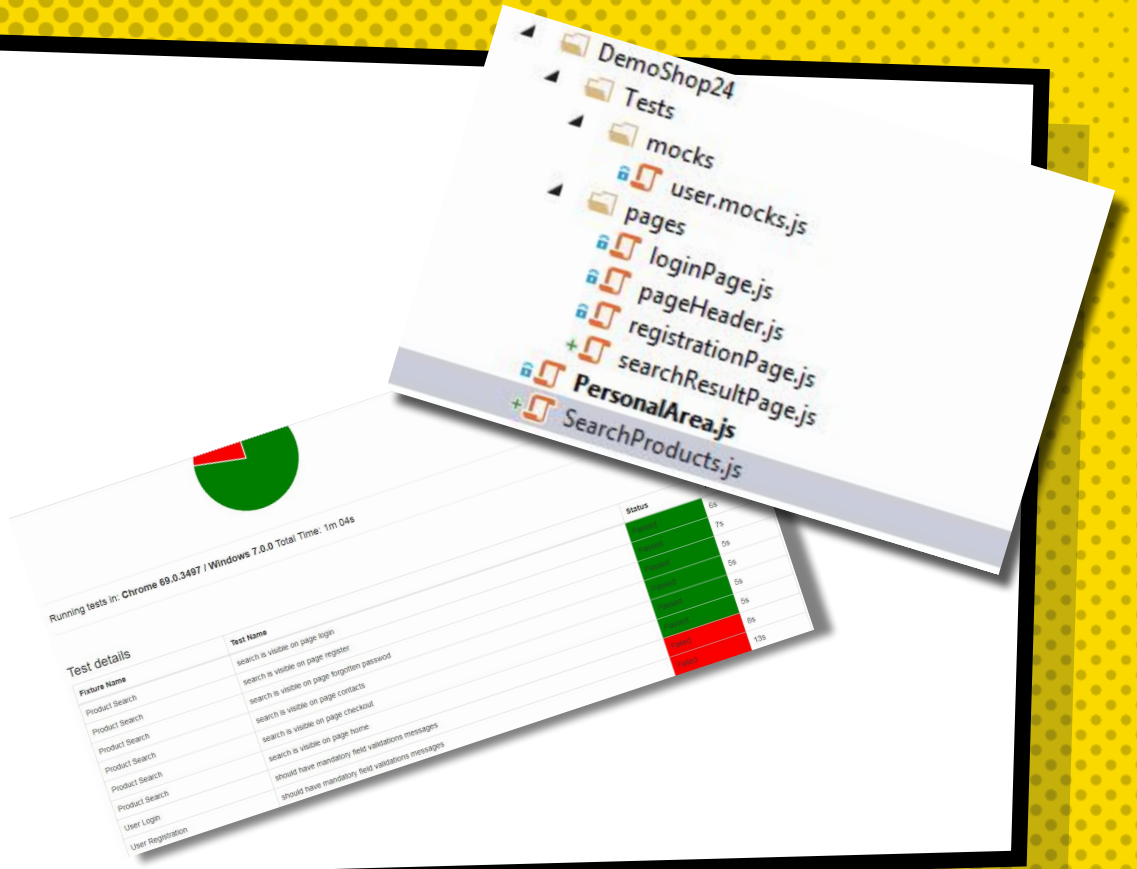
POW!

STACK!

- Testcafe
- Node.js
- JS
- report-html-testrail

SOLUTION!

- Page model
- Test data
- HTML reports



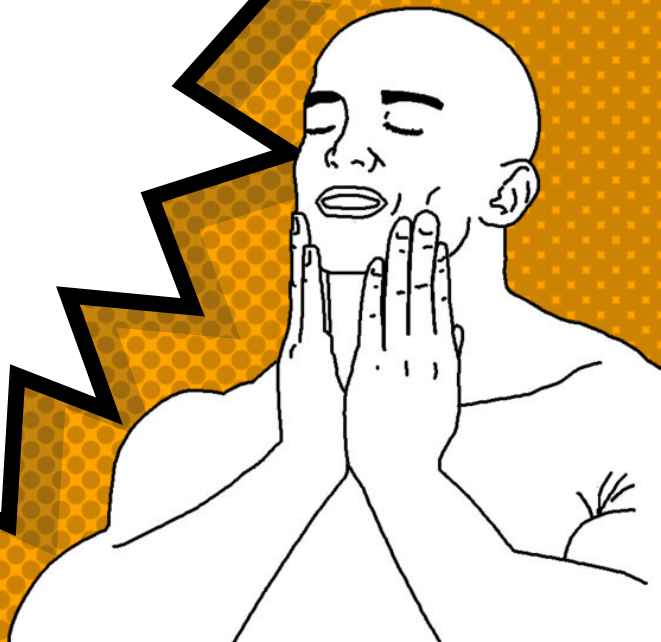
SUPER POWERS OF TESTCAFE!

- Open Source (MIT License)
- Single command setup
- Multi browser support
- Concurrent execution
- Executed even on real (mobile) devices
- Ready for Docker
- No Selenium Webdriver
- Plugin support

SO, RESULTS?

- 9 TSc
- Run in parallel (3 threads in our case)
- On multiple browsers
- Execution time 36s
- Aggregated to single report
- Full coverage: User Registration
- Partial coverage: Product Search

WE'VE DONE IT FOR THE 1ST TIME



THANKS!

Any questions?
